Sam S. Morawski
Ph.D. Student, Department of Geology & Geophysics, University of Wyoming
Laramie, WY 82071 | smorawsk@uwyo.edu | +1 (248) 977-9464

RESEARCH STATEMENT

Using (bio)geochemistry to understand past, present, and future environments. Skilled in fieldwork, data collection, and technical reporting. Praised by professors and peers for outstanding work ethic, curiosity, and inquiry.

EDUCATION

Ph.D. Student — 2026 – present
Department of Geology & Geophysics, University of Wyoming
Advisors: Dr. Jamie McFarlin and Dr. Bryan Shuman

B.S.E Denison University — 2021 – 2025
Earth Science, magna cum laude
Advisor: Dr. Erik Klemetti

TEACHING AND LEADERSHIP

Teaching Assistant — 2026 – present
Department of Geology & Geophysics, University of Wyoming

Teaching Assistant — 2022 – 2025
Department of Earth & Environmental Sciences, Denison University

Outdoor Programing Lead — 2022 – 2025
Denison University

RESEARCH PROJECTS

Unraveling fire-conditions through the combined use of charcoal records and hydrogen (δD) and oxygen ($\delta^{18}O$) stable isotope analysis in the Donnelly Training Area, Alaska — 2025 – present
Department of Geology & Geophysics, University of Wyoming

Thermal history of the Crazy Mountains in the south-central Montana foreland: Insights from inverse thermal history modeling of apatite (U-Th)/He and fission track data — 2023
Department of Earth & Environmental Sciences, Denison University

Leveraging structural, seismic, and low-temperature thermochronology datasets to determine the mechanisms and rates of foreland basin exhumation, Crazy Mountains, USA — 2023
Department of Earth & Environmental Sciences, Denison University

SCHOLARSHIPS AND AWARDS

Kirtley F. Mather Scholarship — 2025
Denison University | $1,000

LaMoreaux Scholarship — 2023 – 2025
Denison University | $5,500

Anderson Summer Scholar — 2023
Department of Earth & Environmental Sciences, Denison University | $3,500

Lisska Center Travel Grant — 2023
Denison University | $750

CONFERENCE PRESENTATIONS

Geological Society of America Annual Conference, Pittsburgh, PA — 2023

1. **Morawski, S.**, Dean, J., Mackaman-Lofland, C., Constenius, K.N., Thomson, S.N., Waanders, G. (2023) Thermal history of the Crazy Mountains in the south-central Montana foreland: Insights from inverse thermal history modeling of apatite (U-Th)/He and fission track data.
2. Dean, J., **Morawski, S**., Mackaman-Lofland, C., Constenius, K.N., Thomson, S.N., Waanders, G. (2023) Leveraging structural, seismic, and low-temperature thermochronology datasets to determine the mechanisms and rates of foreland basin exhumation, Crazy Mountains, USA.

PROFESSIONAL AND FIELD EXPERIENCE

Field Research Assistant — 2026
Department of Geology & Geophysics, University of Wyoming

Geochemistry Analyst — 2025 – 2026
ACZ Laboratories, Inc., Steamboat Springs, CO

Geology Field Camp — 2025
University of St Andrews, St Andrews, Scotland

Watershed Intern — 2024
Glen Lake Association, Glen Arbor, MI

Forest Health Field Technician — 2022
National Park Service, Sleeping Bear Dunes National Lakeshore
